## TO WHOM TO CONCERN

---

Maria Camila has been a brilliant and creative student with an international approach and very passionate about fashion,

She is very prepared, innovative, professional, she has a thorough knowledge of the product, ranging from design to management.

Maria Camila showed qualities of flexibility, reliability and a natural propensity to interpersonal relationships and teamwork.

Thanks to her dedication and tenacity with which she faces every challenge, is able to add value in any professional field.

I would highly recommend **Maria Camila Vanegas** for professional roles in trend research, product development, product management and in particular in the international development of a fashion company.
